

2018 *What's*
NEW

SIGNATURE FINISHES

- ① **STANLEY** The shining fade comes alive in an iconic pattern from the infamous Estes Park hotel's carpet pattern
- ② **BIRCH** A combination of brushing, bead blast, etching and anodizing that all add up to a strikingly subtle design
- ③ **SKYLINE** Inspired by our local mountains, their silhouettes and clear skies
- ④ **PANELS** A classic bicycle aesthetic reimagined in a way that's uniquely Moots

MOOTS

FINISH OPTIONS ANODIZED LOGOS
5 COLORS TO CHOOSE FROM

Moots in-house anodized finishes. This finish option anodizes our standard Moots logos in the same locations of our decals. Customize the look of your Moots in five different colors: **ROOT BEER BROWN, GRAPE, ROCKY MOUNTAIN GOLD, ROSE AND FROST BLUE.**

UPDATED MOOTS GRAVEL LINE

We have been refining our gravel bike line for years, testing on the dirt and gravel roads of Routt county as well as races across the country. This has led us to offer a line that we believe delivers the pinnacle of ride quality and technology for all things gravel.

- ROUTT RSL** Gravel race & ride machine, 40mm max tire clearance
- ROUTT** All around gravel bike, 38mm max tire clearance
- ROUTT 45** Long haul big tire gravel adventure, 45mm max tire clearance

NEW CARBON COMPATIBLE SEATPOST

The solution for customers looking to run saddles with oversized carbon rails is now available. Utilizing the clamping components from Enve along with our titanium post we give you the Moots carbon compatible seatpost. The seatpost head is purposely machined in house to mate perfectly with the Enve internals which will hold your carbon rails tightly.

UPDATED VAMOOOTS DR
ALLROAD PERFORMANCE

All day comfort geometry in a road bike that can handle up to a 30mm tire. Rough roads and smoother dirt roads are no match for the Vamoots DR. Add in the positive feel of disc brakes and this modern day road bike will handle most everything on your list.

UPDATED INTERNAL REAR BRAKE ROUTING
NEW OPTION AVAILABLE

- Integrated design for clean aesthetics
- In-house made CNC weld-ins
- Lifetime warranty
- Developed specifically for road, gravel and cyclocross bikes
- Developed to meet Moots standards and strengths
